GLADIOLUS BULBS AT REDUCED PRICES

DODROPIN GLAD GARDENS

R. G. Bailey, Proprietor
Lewiston Orchards, Rt. 2, Lewiston, Idaho

AMERICAN GLADIOLUS SOCIETY Gold and Silver Medal Winners at Regional Show, Moscow, Idaho, 1929.

At the Intermountain States Gladiolus Society Regional show of the A. G. S. our Glads took gold medal for the largest and best display, silver medal for the best basket of Glads exhibited, and a number of first and second ribbons for best singles and three spikes in various classes. And the competition was keen.

Our Glads have been shipped to and are being grown in every state in the Union. That these far northern grown bulbs are more hardy, free from disease and bring a better bloom is attested by hundreds of letters on file with us, received from satisfied customers. Many of these letters state blooms from bulbs furnished by us have won in the show room where the competition was very keen.

We are developing thousands of our seedlings and in addition have increased our commercial stocks far beyond our ability to store and handle satisfactorily. We must reduce this stock one-half or more and do it quickly.

Our necessity is your gain. To move this stock we are not only making low prices on the bulbs, but in addition are giving discounts which make it decidedly to your advantage to get in your orders at once.

At the prices shown, no orders will be filled for less than \$2 and no single item for less than 10 cents. Where prices shown are less than 10 cents, enough bulbs of the same variety must be added to bring the price to this figure. That is, if a bulb is priced at 3 cents, at least 4 must be ordered.

PREMIUMS FOR ORDERS PLACED NOW

If desired, 25 per cent of the price may be sent with the order and the balance sent when the bulbs are cleaned and ready for shipment. This will be not less than 30 days hence and may be 60 days. Discounts are to be taken in added bulbs of your selection. That is, if you order stock amounting to \$5, you may select other bulbs to the amount of 50 cents, free.

\$5 worth of bulbs 10 per cent discount. \$25 worth of bulbs 25 per cent discount.
\$10 worth of bulbs 15 per cent discount. \$50 worth of bulbs 50 per cent discount.

Get your neighbors to join with you in a group order. The discount is worth the effort. All bulbs are prepaid to your door.

By special permission, as to our reliability, we refer you to the Lewiston National Bank, Lewiston, Idaho.

SUNSET SKY

A new Glad originated by us and offered now for the first time. Entirely different from anything you have seen and you will appreciate it. Large, vigorous spikes; broad open florets, many open at a time; excellent propagator. Color light cream, suffused with carmin; very deep carmin deep in throat; bright carmin lower lip. This flower blends with almost any bouquet. Reminds one of a beautifully blended sunset.

Rosy lavender pink, deeper pink fleckings						

SPECIAL ASSORTED LOTS

While we grow no mixtures, for various reasons we get stocks mixed and so must sell them as such. In the following lots many bulbs are dumped which if sold singly would cost many times what we ask for them. These are exceptional buys to the one who does not care for the named varieties to be kept separate.

LOT NO. 1—In this lot there are 100 small bulbs, all of blooming size, priced at \$2.

LOT NO. 2—100 medium sized bulbs for \$2.50.

LOT NO. 3—100 large sized bulbs for \$3.00.

LOT NO. 4—100 small bulbs, various colors, our choice taken from our regular retail bins, \$2.50.

LOT NO. 5—100 medium sized bulbs, at least 10 different kinds, our choice, each variety separately wrapped and named, \$3.

We are members of the American Gladiolus Society and would recommend to all Gladiolus growers that they become affiliated with this organization. The monthly bulletin, or magazine, is alone worth the \$2 membership fee.
